

Dallas Ballet and Academy of Dance

Dance Class Tuition Rates & Fee Schedule

Base Rates are:

\$40 a month for a 45 minute class once a week

\$44 a month for a 60 minute class once a week

\$88 a month for a 120 minute class once a week

The first class assigned to the eldest student in a family is appraised at the base price- all other classes taken by that student, or others in their immediate family, cost only 50% of the base rate.

Tuition for any given month is due on the first class of the month preceding. For example, September tuition is paid at the time of registration, and October tuition is due at the first class in September, and so on.

A \$5 late fee will be assessed to accounts that are paid more than two weeks late. (Meaning that if October tuition is due the first class of September, but is not paid until the third week of September, a late fee is due).

If tuition has not been paid for a particular month, a student will be prevented from taking class or performing with the studio until instruction cost has been paid.

Tuition is paid on a monthly basis to secure a position in class for a student, not on class by class basis. There will not be a refund on classes missed by the student, although every effort will be made to allow for make up classes. You will receive a tuition refund if you give the established 30 day notice before withdrawing from class.
